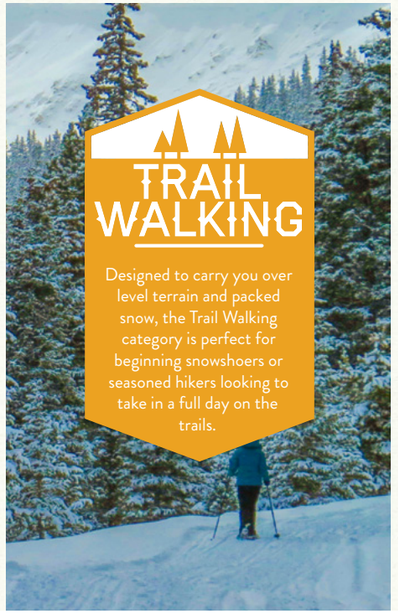
WORKBOOK
2020-2021

The Original American Snowshoe

Founded in 1906, Tubbs is the longest-standing snowshoe brand in the world. Our experience, innovation and craftsmanship have guided thousands of people on their winter adventures. Using the latest technology, we strive to build upon this legacy and inspire confidence in the everyday adventurer. No matter what path your journey leads you down, rest assured Tubbs will be ready to take you there.

SNOWSHOE CATEGORIES

We categorize snowshoeing into three different disciplines for the variety of terrain and snow conditions on which we travel.



F.A.C.T. PLATFORM

The elements we account for when creating our snowshoes are F.A.C.T. : Flotation, Articulation, Control and Traction. These four elements are key in constructing a functional, high quality snowshoe.

FLOTATION

Their ability to float on top of the snow is the number one benefit of snowshoes. Tubbs designs snowshoe decks to increase your movement efficiency by reducing the amount you sink into the snow with each step. We've developed various types of decks in multiple sizes to optimize fit and maneuverability.

ARTICULATION

The action of a snowshoe's articulation is felt with every stride. It is the pivoting technology where the binding attaches to the frame of the snowshoe. We strive to design and develop articulation systems that promote a natural, flowing gait.

CONTROL

The control a user has over the snowshoe is a product of how their footwear interacts with the binding. This aspect is crucial in providing a safe, fun experience on the trails. Our bindings are engineered and tested to ensure maximum security, comfort and ease-of-use.

TRACTION

Traction needs vary widely with snow and trail conditions. It is imperative that we take this into consideration with every snowshoe design. Our traction rails and crampons are engineered to provide the necessary grip for the locations and conditions of primary use.

ANATOMY OF A SNOWSHOE

TUBULAR SNOWSHOES

Tubbs traditional tubular snowshoes are a great option for those looking to explore all the winter landscape has to offer. The soft step of aluminum frames offers a quiet experience for nature lovers and people looking to get away from it all. With a variety of sizes and traction options, everyone can find the right fit to stay on top of the freshly fallen snow. Whether you are searching for a mountain adventure or something to cruise around the local trails, there is a tubular snowshoe for your.

FLOTATION

1 FRAME

Durable 6000 Series aluminum frames are used on all tubular snowshoes to ensure maximum in-field dependability. Every frame has a tapered tail to optimize maneuverability and float.

ARTICULATION

2 ARTICULATION

From our R2 Revolution Response, Rotation Toe Cord and Fixed Toe Cord pivot systems, we have you covered for any variety of terrain.

CONTROL

3 BINDING

Our binding designs are constantly evolving to improve stability, control and comfort across all categories, each designed for specific trail needs.

4 HEEL LIFT

All Backcountry and Day Hiking snowshoes come with a heel lift to help you get uphill more efficiently and reduce calf strain.

TRACTION

5 TOE CRAMPON

Designed to make you sure-footed on your trail of choice.

6 HEEL CRAMPON

Provides additional grip and serves as a brake to prevent you from sliding backwards.

FLEX SNOWSHOES

Created to optimize traction, biomechanics and comfort, the FLEX Series offers a modern take on snowshoes. Choose a FLEX snowshoe when traction is the priority! Perfect for the summer hiker looking to extend their season and tackle their favorite trails, when the snow starts falling.

FLOTATION

1 FLEX DECK

Our advanced deck designs adapt to a variety of snow conditions underfoot. The Flex Deck allows torsional articulation throughout the body of the snowshoe, maximizing comfort and traction on uneven terrain.

2 FLEX TAIL™

The patented FLEX Tail™ technology allows the snowshoes to roll naturally underfoot, from heel strike to toe off. Absorbing shock from initial heel impact the FLEX Tail™ reduces the amount of stress on ankles, knees and hips.

ARTICULATION

3 ARTICULATION

Our Rotation Toe Cord with Rotation Limiter, and Fixed Toe Cord pivot systems have you covered for any variety of terrain and snow conditions.

CONTROL

4 BINDING

Our binding designs are constantly evolving to improve stability, control and comfort across all categories, each designed for specific trail needs.

5 HEEL LIFT

All Backcountry and Day Hiking snowshoes come with a heel lift to help you get uphill more efficiently and reduce calf strain.

TRACTION

6 CRAMPON

Designed to make you sure-footed on your trail of choice.

7 TRACTION RAILS

Traction Rails on all FLEX Series snowshoes ensure superior side-hill grip in hard-packed and icy conditions.

BACKCOUNTRY

Designed to break trails and get you to the peak, the Backcountry category offers our most aggressive traction without sacrificing comfort and control.

MEN'S WOMEN'S

MOUNTAINEER

Easily access the backcountry with the Mountaineer. The ActiveFit™ 2.0 binding and snow-shredding Anaconda™ crampon give the Mountaineer the go anywhere, do-anything versatility you need to reach for the peaks or explore uncharted terrain.

Men's Available Sizes: 25", 30", 36"
Men's Weight/Pair: 4.9 lbs / 2.24 kg (25")
Women's Available Sizes: 21", 25", 30"
Women's Weight/Pair: 4.8 lbs / 2.16 kg (25")
Frame and Decking: Pro-Step™ Frame, Soft-Tec™ Decking
Articulation: R2™ Revolution Response
Control: ActiveFit 2.0™ Binding
Traction: Anaconda™ Toe Crampon, Python™ Heel Crampon
Other: ActiveLift™ 19° Heel Lift, EZ Heel Buckle

¥36, 300

MEN'S WOMEN'S

FLEX VRT

The FLEX VRT was designed to deliver premium performance for backcountry exploration. The DynamicFit 2.0™ binding with the Boa® Closure System produces evenly distributed tension around your boot for ultimate precision. The FLEX Tail™ design eases stress on your joints, allowing you to reach the summit.

Men's Available Sizes: 24", 28" (XL)
Men's Weight/Pair: 4.5 lbs / 2.03 kg (24")
Women's Available Sizes: 22"
Women's Weight/Pair: 4.0 lbs / 1.84 kg
Frame and Decking: Torsion Deck™, FLEX Tail
Articulation: Rotation Limiter
Control: DynamicFit 2.0™ Binding
Traction: Viper 2.0™ Toe Crampon, 3D-Curved Traction Rails
Other: ActiveLift™ 19° Heel Lift, EZ Heel Buckle

¥33, 000

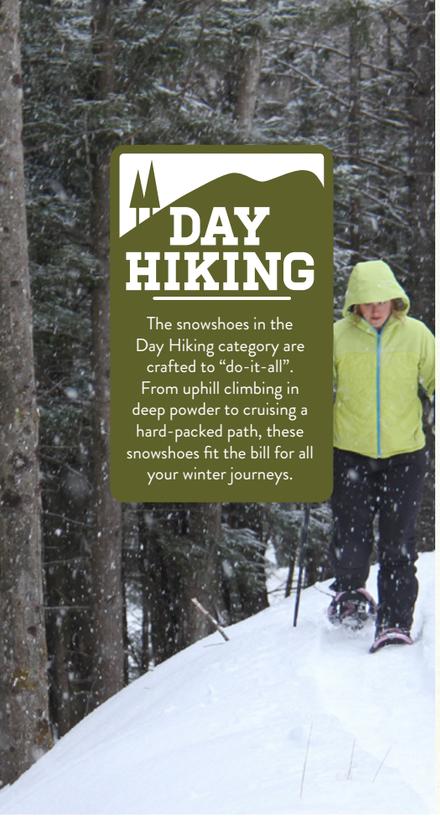
MEN'S WOMEN'S

FLEX ALP

The FLEX ALP ups the ante for backcountry enthusiasts with micro-serrated 3D-Curved Traction Rails, the Viper 2.0 toe crampon and the Active Fit™ 2.0 binding. The new cinch binding strap provides comfort and support with an easy entry and exit. The Torsion Deck design reduces stress on your joints while creating a natural stride even through steep, icy terrain.

Men's Available Sizes: 24", 28" (XL)
Men's Weight/Pair: 4.6 lbs / 2.08 kg (24")
Women's Available Sizes: 22"
Women's Weight/Pair: 4.1 lbs / 1.88 kg
Frame and Decking: Torsion Deck™, FLEX Tail™
Articulation: Rotation Limiter
Control: ActiveFit 2.0™ Binding
Traction: Viper 2.0™ Toe Crampon, 3D-Curved Traction Rails
Other: ActiveLift™ 19° Heel Lift, EZ Heel Buckle

¥29, 700



DAY HIKING

The snowshoes in the Day Hiking category are crafted to "do-it-all". From uphill climbing in deep powder to cruising a hard-packed path, these snowshoes fit the bill for all your winter journeys.

MEN'S

WOMEN'S

PANORAMIC

The Panoramic delivers optimal flotation in deep snow, while the DynamicFit 2.0™ binding with Boa® Closure System provides an uncompromised precision fit. The Panoramic's Cobra traction grips icy, variable terrain with ease, so you can always reach the best view on the trail.

Men's Available Sizes: 25", 30", 36"
Men's Weight/Pair: 4.4 lbs / 1.98 kg (25")
Women's Available Sizes: 21", 25", 30"
Women's Weight/Pair: 4.3 lbs /1.94 kg (25")
Frame and Decking: Fit-Step™ 2.0 Frame, Soft-Tec™ Decking
Articulation: R2™ Revolution Response
Control: DynamicFit 2.0™ Binding
Traction: Cobra™ Toe Crampon, Tubbs Heel Crampon
Other: ActiveLift™ 16° Heel Lift, EZ Heel Buckle

¥17, 600

MEN'S WOMEN'S

FLEX STP

Designed for new snowshoers or those looking for a casual day out on the trails. The FLEX STP offers a supportive and comfortable Torsion Deck™ and FLEX Tail™ design, with reliable Traction Rails to keep footing secure throughout the hike. This shoe is the perfect opportunity for value-conscious buyers to enjoy the FLEX™ Series frames at an affordable price.

Men's Available Sizes: 24", 28" (XL)
Weight/Pair: 3.5 lbs / 1.59 kg (24")
Women's Available Sizes: 22"
Weight/Pair: 3.3 lbs / 1.52 kg
Frame and Decking: Torsion Deck™, FLEX Tail™
Articulation: Rotation Limiter
Control: QuickPull™ Binding
Traction: Traction Rails and Tubbs Toe Crampon

¥15, 400

FLEX HKE

Designed for those who have outgrown traditional kids' snowshoes but aren't ready to step into a full-size adult model. The FLEX HKE features traction rails that keep snowshoes steady on icy slopes and variable terrain, and a Torsion Deck™ providing optimal flotation. A simple QuickLock™ binding rounds out the design, making the HKE ready for anything.

Available Sizes: 22"
Recommended Ages: 13-18
Weight/Pair: 3.3 lbs / 1.52 kg
Recommended shoe size: Jr. 3 - Men's 9
Frame and Decking: Torsion Deck™, FLEX Tail™
Articulation: Rotation Limiter
Control: QuickLock™ Binding
Traction: Traction Rails and Tubbs Toe Crampon
Other: ActiveLift™ 16° Heel Lift

¥13, 200

GLACIER

The Glacier is sure to please "tweeners" headed on adventures with the family. This snowshoe has a tight frame shape to accommodate a narrower stance. A fixed toe cord helps the snowshoes stay close underfoot, providing improved maneuverability through the snow.

Available Sizes: 21"
Recommended Ages: 10-15
Weight/Pair: 2.6 lbs / 1.16 kg
Recommended shoe size: Jr. 3 - Men's 9
Frame and Decking: Fit-Step™ Frame, Soft-Tec™ Decking
Control: QuickLock™ Binding
Traction: Recreational Toe and Heel Crampon

¥13, 200

STORM

The Storm is a true kid-friendly model, boasting a tapered frame shape and QuickLock™ binding. This unisex snowshoe might look like mom and dad's, but it's built to accommodate a small stance, with a buckle that makes getting in and out a whole lot easier.

Available Sizes: 19"
Recommended Ages: 6-10
Weight/Pair: 2.2lbs /1.00 kg
Recommended shoe size: Youth 11 - Men's 4
Control: QuickLock™ Binding
Traction: Recreational Toe and Heel Crampon

¥12, 100

FLEX JR

The FLEX JR brings the award-winning FLEX Tail™ design to kids ages 6-10. The simple QuickLock™ binding-with its easy-stretch heel strap enables kids to take control.

Available Sizes: 17"
Recommended Ages: 6-10
Weight/Pair: 2.1 lbs /.97 kg
Recommended shoe size: Youth 11 - Men's 4
Frame and Decking: Torsion Deck™, FLEX Tail™
Articulation: Rotation Limiter
Control: QuickLock™ Binding
Traction: Traction Rails and Tubbs Toe Crampon

¥8, 800

SNOWGLOW

More fun with every step! The SnowGlow features flashing LED lights that activate with each stride. In addition to the MotionBright™ lighting system, the simple QuickLock™ binding provides easy on/off, while molded traction rails promote safe winter exploration.

Available Sizes: 16"
Recommended Ages: 4-8
Weight/Pair: 1.6lbs /0.73 kg
Recommended shoe size: Youth 11 - Men's 4
Other: MotionBright™ Lighting System

¥7, 700

NEW

SNOWBALL

The perfect snowshoe for kids ages 4-8. The QuickLock binding is secure and comfortable while providing easy on and off for kids and parents alike. There is plenty of traction for a fun day in the snow. Just add snacks and adventure awaits!

Available Sizes: 16"
Recommended Ages: 4-8
Weight/Pair: 1.4 lbs /0.66 kg
Recommended shoe size: Youth 11 - Men's 4

¥6, 600

SNOWFLAKE

Designed for our youngest explorers, the SnowFlake is a great introduction to snowshoeing. It's fun design features an easy 2-step binding and, best of all, a sticker pack for boys and girls to customize their shoes.

Available Sizes: 14"
Recommended Ages: 3-6
Weight/Pair: 1.3 lbs / 0.60 kg
Recommended shoe size: < Youth 11
Other: Sticker Pack for Custom Snowflakes!

¥6, 600

ACCESSORIES

SNOWSHOE HOLSTER

The snowshoe holster is the perfect way to transport your snowshoes and poles between excursions. The open design allows your gear to dry for proper storage and the reinforced polyester material is strong enough to carry poles.

Available Sizes: 20 x 64cm

¥3, 850

SNOWSHOE PACK

Adjustable shoulder straps hold this anatomically-designed pack snug against your back for hands-free movement and easy access. A grab-and-go side handle lets you transport your gear in one hand, while a durable nylon-canvas and mesh construction allows your snowshoes to dry between uses.

Available Sizes: 8 x 25 in. 20 x 64 cm
9 x 30 in. 23 x 76 cm
10 x 36 in. 25 x 91 cm

¥4, 950

GAITERS

Water-resistant and breathable, these full-length nylon gaiters provide protection from the elements by keeping snow and ice out of your boots.

NEW

TRAIL WALKING 2 PIECE POLES

The Trail Walking poles are the perfect companions to our snowshoes for flat to moderate terrain. These poles are crafted from 6000 aluminum and feature a seamless 2-part shaft, twist-lock adjustment, a rubber grip and steel tips.

One Size
Extended Length: 41.3 - 51.2 in. / 105-130 cm
Collapsed Length: 30.70 in. / 78 cm
Weight (Pair): 1.1 lbs / .50 kg

¥6, 600

NEW

DAY HIKING 3 PIECE POLES

For those seeking more adventure, the Day Hiking poles provide added support on the snow. These poles are crafted from 6000 aluminum and feature a seamless 3-part shaft, twist-lock adjustment, a rubber grip and steel flex tips.

One Size
Extended Length: 35.5 x 57 in. / 90 - 145cm
Collapsed Length: 26.25 in. / 67 cm
Weight (Pair): 1.2 lbs / .54 kg

¥7, 700

KITS

FLEX TRK KIT

Available in men's and women's kits, contents include the following:
- One pair of men's or women's FLEX TRK snowshoes
- One pair of 2-part adjustable trail walking poles
- One FLEX Series snowshoe tote bag

Men's Available Sizes: 24"
Men's Weight/Pair (Snowshoes Only): 4.0 lbs / 1.82 kg
Women's Available Sizes: 22"
Women's Weight/Pair (Snowshoes Only): 3.5 lbs / 1.60 kg
Frame and Decking: Torsion Deck™, FLEX Tail™
Articulation: Rotation Limiter
Control: 180™ EZ Binding
Traction: Traction Rails and Tubbs Toe Crampon
Other: ActiveLift™ 16° Heel Lift

XPLORE KIT

Available in men's and women's kits, contents include the following:
- One pair of men's or women's Xplore snowshoes
- One pair of 2-part adjustable trail walking poles
- One pair of men's or women's gaiters

Men's Available Sizes: 25", 30"
Weight/Pair (Snowshoes Only): 3.6 lbs / 1.61 kg (25")
Women's Available Sizes: 21", 25"
Weight/Pair (Snowshoes Only): 3.6 lbs / 1.62 kg (25")
Frame and Decking: Fit-Step™ Frame, Soft-Tec™ Decking
Articulation: Rotating Toe Cord
Control: QuickPull™ Binding
Traction: Recreational Toe and Heel Crampons

FLEX STP KIT

Available in men's and women's kits, contents include the following:
- One pair of men's or women's FLEX STP snowshoes
- One pair of 2-part adjustable trail walking poles
- One FLEX Series snowshoe tote bag

Men's Available Sizes: 24", 28" (XL)
Weight/Pair (Snowshoes Only): 3.5 lbs / 1.59 kg (24")
Women's Available Sizes: 22"
Weight/Pair (Snowshoes Only): 3.4 lbs / 1.52 kg
Frame and Decking: Torsion Deck™, FLEX Tail™
Articulation: Rotation Limiter
Control: QuickPull™ Binding
Traction: Traction Rails and Tubbs Toe Crampon

TUBBS TECHNOLOGY

FRAMES AND DECKING

PRO STEP FRAME	The Pro-Step™ frame combines a continuous frame bend with a longer, lower rise for improved flotation. The lower height nose packs easily, while the tail bend reduces impact on your joints.
FIT·STEP™	The innovative, upturned tail of the aluminum Fit-Step™ frame provides biomechanical benefits, reducing muscular skeletal impact on hip, knee and ankle joints by 10%.*
SoftTec DECKING™	SoftTec™ decking provides durable, lightweight flotation and has a smooth, soft texture.
FLEX TAIL™	The patented FLEX Tail™ technology allows the snowshoe to roll more naturally from heel to toe. The FLEX Tail™ absorbs shock from the heel strike, reducing the amount of stress on joints.
TORSION DECK™	Tubbs' advanced Torsion Deck™ allows torsional articulation throughout the body of the snowshoe, enhancing traction, preserving your natural gait, and improving comfort on uneven terrain.

ARTICULATION SYSTEMS

R2 REVOLUTION™ RESPONSE	R2™ delivers shock-absorbing lateral flex and quick sidehill responsiveness while maintaining a natural foot position. Full step rotation also sheds snow and allows the toe crampon to bite deeply.
ROTATING TOE CORD ROTATION LIMITER	The Rotating Toe Cord design enables the tail of the snowshoe to drop, shedding snow and reducing cardio-respiratory strain by 7%*, while a Rotation Limiter prevents over-rotation.
ROTATING TOE CORD	The Rotating Toe Cord design enables the tail of the snowshoe to drop, shedding snow. When weighted, the teeth on the toe traction underfoot bite deeply into the snow.
FIXED TOE CORD	The Fixed Toe Cord pivot system is efficient for flat and rolling terrain with packed snow conditions. It also keeps the snowshoe close to the foot for quick turnover.

* According to a study conducted by Ray Browning, Ph.D. (Colorado State University)

TRACTION

ANACONDA™	The razor-sharp, carbon steel Anaconda™ toe crampon has eight teeth, providing constant contact and penetration in all types of terrain.
COBRA™	The carbon steel Cobra™ toe crampon, located under the ball of the foot, provides constant contact in variable snow conditions. It's jagged tooth construction improves grip on packed snow and ice.
viper 2.0™	The Viper™ 2.0 carbon steel toe crampon's jagged tooth construction maximizes weighted traction and responsiveness. The aggressive tangs in the crampon deliver an added degree of security on variable snow.
RECREATIONAL CRAMPONS	Our Recreational series of carbon steel toe and heel crampons feature front and rear braking teeth for secure uphill, downhill and sidehill grip on packed snow conditions.
PYTHON™	The aggressive Python™ heel crampon, centered under the boot, delivers enhanced downhill braking traction.
TRACTION RAILS	The Traction Rails ensure superior sidehill grip in hard-packed and icy conditions.

BINDINGS

ACTIVE FIT 2.0™	The ActiveFit™ 2.0 binding features a TPU cinch strap for ease of entry, control and support while staying secure. Advantages of the TPU cinch straps is that it decreases friction and ice build up. To release the binding, just pull up on the strap. The EZ Heel Buckle provides single-handed convenience while ensuring all-day comfort.
DYNAMIC FIT 2.0™	The DynamicFit™ 2.0 binding integrates the Boa® Closure System with the comfort of EVA foam, providing even pressure distribution around your boot and precise fit with optimized control. Releasing the binding is as simple as pulling up on the Boa® dial.
CUSTOM WRAP 2.0™	Featuring the Boa® Closure System, the innovative and quick-to-secure CustomWrap™ 2.0 binding provides optimal fit, comfort and ease of use, encompassing your foot with the simple twist of a dial.
180 PRO™	Our most robust 180™ Series binding, the 180™ Pro, features rigid Control Wings™, a locking heel strap and a padded upper for pressure-free comfort and added warmth.
180 EZ™	The streamlined 180™ EZ binding features a simple, one buckle tightening mechanism, coupled with easy-to-use Control Wings™ and a heel strap for efficient, lightweight support.
QUICKPULL™	An intuitive forefoot strap on the QuickPull™ binding cinches easily and unlocks with one buckle push. The pivoting toe stop allows for speedy adjustments and Control Wings™ keep your heel aligned.
QUICK LOCK™	The QuickLock™ binding features a simple tightening and locking buckle that slides easily to lock and stays snug around the boot, providing security and comfort.

OTHER

ACTIVE LIFT 16°/19°™	Designed to make steep ascents easier, the ActiveLift™ heel lift reduces calf fatigue and Achilles tendon strain and can be easily pulled up and down. The 19° Backcountry heel lift is ideal for extreme ascents, while the 16° Day Hiking version is designed for moderate terrain.
Women's-Specific DESIGN	Tubbs was the first company to manufacture gender-specific snowshoes and remains committed to an ergonomics-first approach when designing all of our products. The women's-specific snowshoes are lighter in weight, feature ergonomically-tapered frames for an easier stride and offer bindings sized and scaled for a woman's boot.
MOTIONBRIGHT™	Flashing LED lights with every step! Motion-activated LED lights create excitement to get outside. Battery included and replaceable.
